Mayors Of Glades Cities Sum Up Local Accomplishments

MAYOR FISHER

SOUTH BAY

BY MAYOR S. J. FISHER
CITY OF SOUTH BAY

Thank you for your letter of June 26 in which you invited my comment upon the progress South Bay has made in the past six months and what plans it envisions for the next six months.

Great progress in street improvements has been made in these last six months with more than a mile of streets being paved in that period. More specifically First, Second, Fifth and Ninth Avenues have been paved or paved and extended.

As responsible elected officials we feel that beautification should go hand in hand with convenience, therefore, palm trees and shrubs have been planted in the community and at the moment the city is keeping city grass mowed not only for appearance sake but for mosquito control. One ton of dust has been spread in the past few weeks in an effort to control insects.

We as city fathers are interested in the welfare of young people. We have secured and supervised the installation of \$3,000 worth of playground equipment in the past six months and have engaged a playground supervisor. Also we are cooperating with the School Board in its summer recreation program and have provided additional funds to that end.

Building permits in the city have made an advance over other periods with the \$30,000 permit issued for the First Baptist Church being one of the largest granted.

A step toward even better police protection was taken when we bought a new police car and equipped it with a two-way radio. This facility will prove invaluable in daily use and in case of emergency could assist civil defense authorities.

You have asked what our plans are for the next six months. That is a very good question because there are many things we want to do for our community and we know that we cannot do all of them and must, therefore, do the most important ones.

First in importance is condemnation of unsafe or insanitary buildings. With added teeth in it, the ordinance now on the books will give us the power we need to clear out and clean up unsightly premises and properties menacing public health.

Another project we have in mind is building a municipal garage where city owned equipment can be stored and facilities for its maintenance kept. As elected agents it is our duty to do all we can to protect public property.

To further improve our street communications, progress on which has been made in the past six months, we look forward to curbing and extending existing roadways.

To sum up, our community can be proud of the City Hall which was provided a few years ago. It affords us a center from which to work and a focal point from which other progress can be judged. With our streets improved and beautified, our playgrounds made adequate and our churches and homes well protected by fire and police equipment we can look back with a pride in accomplishment and forward with a deep sense of responsibility to those whom we represent.

IN SOUTH BAY: NEW PLAYGROUND EQUIPPED. IN USE

MAYOR RABIN

BELLE GLADE

BY MAYOR HAROLD RABIN
CITY OF BELLE GLADE

The following is a brief summary of the progress made, and the work done, by the City of Belle Glade in the last six months. I feel that it is a record that we can all be proud of and I am very happy to submit it to you for publication in your paper.

The first and most important change made by this City was the adoption of a Charter Amendment authorizing the employment of a City Manager. This has enabled us to place all of the administrative responsibilities in the hands of one person who has the training and experience to plan, direct and co-ordinate the activities of the various City Departments and to keep the City Commission informed of the City's needs.

Some of the changes and improvements made in the administration of the City's business during the time the City Manager has been in office are: improved methods of billing the garbage charges, centralized Cashier's office providing a centralized and convenient purchasing system to control and economize on the City's purchases.

In our Park and Recreation Department we are now maintaining, in cooperation with the public schools, a summer recreation program for children of all ages. This program includes swimming, arts and crafts and supervised play. We have also provided a completely equipped playground at the colored school. This equipment was furnished by The Heckscher Foundation for Children and was installed by the City. We have built a Storage and Garage building in the City Park and are presently laying some much needed sidewalk.

The Street Department has paved over 31,336 feet of streets, laid 1700 feet of curbs and gutters and installed approximately 1,000 feet of storm sewers in addition to the normal maintenance work on the streets and drainage ditches. This department is also responsible for keeping the grass and weeds cut in vacant lots and along the roadways.

Our Chief of Police has just completed a three months training period at the National Academy of the Federal Bureau of Investigation. This puts a man at the head of our Police Department with the training and experience equal to any city in Florida.

The Building Department now has forty-nine sub-standard buildings under condemnation with twenty-seven of them in the process of being torn down. This is part of the City's long range plan to rid Belle Glade of its deteriorated and sub-standard buildings.

Some of the other accomplishments of the last six months that do not fall into the departmental classification are the following:

The purchase of a site for the Colored Community Center, the purchase of a site for the National Guard Armory, a pledge to furnish a site for the Health Clinic, the donation of two thousand dollars to the swimming pool fund; and the Codification of all City Ordinances.

Within the next six months we plan to re-locate the source of the City's water supply, to rebuild the loading zone for farm labor, pave or re-work approximately five miles of City streets and to continue a program of general City improvements within the limit of our City Budget.

Thank you very much for the opportunity to present this summary of our activities to your readers. We all appreciate the interest that you at the GLADES OBSERVER have shown in Belle Glade.

IN BELLE GLADE: CONDEMNED BUILDINGS DEMOLISHED

MAYOR FRIEND

PAHOKEE

BY MAYOR LEWIS FRIEND
CITY OF PAHOKEE

In the many and varied problems the city government of Pahokee has dealt with in the past six months, it seems to me that the major accomplishments are the start of the new street and sidewalk building program, and the beginning of the revision of Pahokee's planning and zoning ordinances.

I consider the first important because any town worth the name today must have good streets and good sidewalks.

The day is gone when horsedrawn buggies were patiently pulled through mire, rut-scarred streets and roads. The day is here when communities must show by their neat and well-maintained streets that theirs is no cross-roads town.

In the City of Pahokee's overall street program, the first phase has been completed.

On point Number Two, the city government has had to face the fact that the ordinances pertaining to building and zoning not only are incomplete and lack definitiveness, but that they are outmoded so far as the need for growth of this city is concerned.

Therefore, in the next six months, I hope that the special zoning committee, the Council, and the Florida Planning and Zoning Association will not only work out but put into effect a more comprehensive city plan.

We have before us the problem of taking the old ordinances and dissecting each one, finding the weaknesses of the building code, remedying the shortcomings of the zoning restrictions.

The fact that Pahokee's building progress the first six months of this year is only \$16,000 short of the entire total of 1953 shows how fast we are growing, and how important better zoning is. As our city expands, so must our concept of zoning and building expand.

When the revised ordinances are put into effect, our city should then see the end of shacks and scrap-heaps within its boundaries, and each new building built along strict specifications taking into consideration future growth of our city.

With this, I hope to see Council implement a second phase of the street and sidewalk program, so that improvement may go throughout the town.

Anyone who doubts the need for and importance of such a street-sidewalk program need only look at the renewed evidence of pride in their city which the homeowners along the newly-improved streets have shown by their efforts at repairing and generally improving their houses and lots.

If the city can accomplish just these two important programs—more street improvement and a set of good zoning ordinances—in the next six months, then I feel Pahokee will indeed have gained.

OUR HOLIDAY ISSUE

This issue of GLADES OBSERVER marks the completion of another year of work by the staff of Lake Shore Press Incorporated. On the occasion of that staff having a well-earned week off, we have asked the mayors of the Glades cities to write the summations published on this page. On the inside pages will be found the current ads, and a pictorial review of events of the past months. This coming Monday, the OBSERVER shop will reopen, and thenceforth, for another year, it will be "business as usual." Benjamin S. Roberts will be in charge of the issues of July 23 and 30.

Common Sense - - A Guest Editorial -

Belle Glade city officials are to be commended on their efforts to clean up the city by their recent actions. When condemnation procedures began, some property owners began to object. That is, began to let up a ringing howl.

However, the portrayal of conditions existing in the city by newspapers, is a picture of the real facts, of which no citizen living in a civilized community can be proud.

Thanks to the medical profession too, for if they were not for this group, there is no doubt that diseases of all types, under such conditions, would be rampant throughout the entire community.

It would seem that property owners would be aware of the hazards accompanying conditions such as those shown, eliminating the necessity of legal action prior to taking corrective measures. This, for the sake of themselves and the community. Obviously, though, this has not been the case.

Now that Belle Glade city officials have taken the step, it is to be hoped that the neighboring cities will pursue the same course and that even our county and state officials will move along the same direction, correcting messy, dirty, filthy, conditions which exist in the outlying regions beyond the limits of municipalities.

Again, congratulations to officials of the City of Belle Glade and to the property owners who are cooperating so understandingly.

THAT'S A FACT

The Secretary Bird!

A POPULAR BIRD BECAUSE OF ITS ABILITY TO TAKE ON EVEN THE MOST POISONOUS OF SHAKES AND BEAT THEM TO DEATH WITH WELL-AIRED KICKS! FOUND IN AFRICA IT DERIVES ITS NAME FROM THE PEN-LIKE APPEARANCE OF ITS HEAD FEATHERS.

BY SCHATZI

HIGH ABOVE SEA
LEVEL, N. C.
July 14, 1954

Dear Maybeline:
Just wanted to let you know we arrived safely.

How, I'll never know.
En route, I was poked from the north by a fishing rod, and hit on the south by a box of books. That was nothing to the asthma I got when we passed the peanut fields.

It is quite lovely here in the mountains. Reminiscent of my old homes in Virginia and Nevada. I find it my dismay, however, that though it is vacation I am still being kept on my diet. The mountains were never like this before.

Tomorrow I'm going fishing. You know how I hate boats and motors.

Dear or no, I'll write to you after that.

Fondly your friend,
Schatzi

UNIVERSITY OF FLORIDA COOKING HINTS

BY ALICE CROMARTIE

The college of agriculture, University of Florida, through the Agricultural News Service, offers as its July food suggestion the watermelon.

It's watermelon, ice cold, sweet and delicious — there's nothing else to equal in my book! With all the watermelon consumed around your house this summer, why not make watermelon rind pickles and preserves? They are so good to eat now, and they're fine for Christmas giving and for use in fruit cake (in place of citron). Watermelon rind preserves can be used to decorate Christmas goodies, too.

Save those rinds that are thick. Here are the directions. Hope by tomorrow you'll have some pickles and preserves under way! Your family will love them.

Sweet Pickled Rind

Select rind from a small firm, not over-ripe melon (or half a rind from a large melon). Trim off green skin and pink flesh. Cut in inch cubes and soak for 2 1/2 hours in lime water — 2 tablespoons lime and 2 quarts of cold water. Drain and cover with cold water to freshen. Drain again, cover with fresh water and cook for 1 1/2 hours, or until tender; add more water as it boils off, if necessary. Let stand overnight in this same water and drain next morning. Bring to boiling point 2 quarts white vinegar, 1 pint of water, 8 cups sugar and 2 tablespoons whole cloves and 4 sticks cinnamon tied loosely in cheesecloth. Add the drained watermelon, and boil gently for 2 hours, or until sirup is fairly thick and rind clear. Remove spice bag, pack watermelon pickle in sterilized glass jars, seal air-tight and store in cool place.

TYLANDERS INC.

dedicated to YOU...

... YOU, who are responsible for this fine community and the myriad advantages and opportunities it offers. Its schools, churches, recreational and social facilities are your doing. Its future growth and betterment are also in your hands.

Your children, as tomorrow's citizens, will continue the progress you have so capably put in operation.

You may be among the home owners in our community, and as such we know you have passed the "prelude" and are enjoying the happiness that home brings.

If you have not yet acquired "life's second greatest possession," we hope we can be instrumental in pointing the way to your "prelude to happiness." We want to help you in the anticipation, dreams and fulfillment of home planning and home ownership, as a contribution to the well-being and security of you and your family, as well as to the community of which we are proud and happy to be a part.

Sincerely,
Malcolm Smith, Mgr.

FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade

CHRISTIAN SCIENCE GROUP, Canal Point

That strength, joy and healing result from a spiritual understanding of God as infinite Life will be brought forth at Christian Science services Sunday.

Keynoting the Lesson-Sermon entitled "Life" is the Golden Text from Romans (6:23): "The gift of God is eternal life through Jesus Christ our Lord."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following: 487:27; "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality."

The following passage will be among those read from the Bible (Psalms 118:14, 17): "The Lord is my strength and song, and is become my salvation. I shall not die, but live, and declare the works of the Lord."

Honey on Wheels

—and only \$2527.38 buys it!

HAVE you been thinking you can't afford a new Buick? Listen:

If you can afford any new car, you can afford a Buick—and we boldly show our price here to prove it.

Look again, and you'll see that this is the local delivered price of the new Buick SPECIAL 2-door, 6-passenger Sedan. Compare, and you'll learn that this price is just a few dollars away from those of the so-called "low-price three."

But—dig a little deeper if you want the real clincher. That's when you find that those few dollars more you pay for a Buick buy you a lot more automobile.

They buy a whale of a lot more power—Buick V8 power—plus the new economy of Powerhead Combustion.

They buy a lot more luxury and comfort and solidity—more room, more glass area, more frame strength, more tread width, more ride steadiness—including the million dollar "feel" of all-coil springing and torque-tube stability.

They buy, too, the most advanced styling of the times, and the great panoramic windshield, and the surety that such fresh-

And get this—That's the local delivered price of the New Buick Special V8

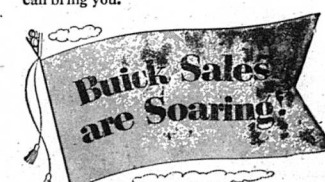

2-DOOR, 6-PASSENGER SEDAN Model 480 (1101)

*Optional equipment, accessories, state and local taxes, if any, additional. Prices may vary slightly in adjoining communities due to shipping charges. All prices subject to change without notice. Even the factory-installed extras you may want are bargains, such as heater & defroster... only \$81.70.

looking beauty will stay in the style parade for seasons to come. (That means a better deal for you come resale time.)

Is it any wonder, then, that Buick now outsells all other cars in America except two of the so-called "low-price three"?

Come in for a demonstration—this week, for sure. And learn, in the doing, what a big trade-in allowance our volume sales can bring you.

Common Sense - - A Guest Editorial

Belle Glade city officials are to be commended on their efforts to clean up the city by their recent actions. When condemnation procedures began, some property owners began too. That is, began to let up a ringing howl.

However, the portrayal of conditions existing in the city by newspapers, is a picture of the real facts, of which no citizen living in a civilized community can be proud.

Thanks to the medical profession too, for if it were not for this group, there is no doubt that diseases of all types, under such conditions, would be rampant throughout the entire community.

It would seem that property owners would be aware of the hazards accompanying conditions such as those shown, eliminating the necessity of legal action prior to taking corrective measures. This, for the sake of themselves and the community. Obviously, though, this has not been the case.

Now that Belle Glade city officials have taken the step, it is to be hoped that the neighboring cities will pursue the same course and that even our county and state officials will move along the same direction, correcting messy, dirty, filthy, conditions which exist in the outlying regions beyond the limits of municipalities.

Again, congratulations to officials of the City of Belle Glade and to the property owners who are cooperating so understandingly.

Dear Maybelline:
Just wanted to let you know we arrived safely.

How, I'll never know.
En route, I was poked from the north by a fishing rod, and hit on the south by a box of books. That was nothing to the asthma I got when we passed the peanut fields.

It is quite lovely here in the mountains. Reminiscent of my old homes in Virginia and Nevada. I find to my dismay, however, that though it is vacation I am still being kept on my diet. The mountains were never like this before.

Tomorrow I'm going fishing. You know how I hate boats and motors.

Dear or no, I'll write to you after that.

Fondly your friend,
Schatzi

UNIVERSITY OF FLORIDA COOKING HINTS

BY ALICE CROMARTIE
The college of agriculture, University of Florida, through the Agricultural News Service, offers as its July food suggestion the watermelon.

It's watermelon, ice cold, sweet and delicious — there's nothing else to equal in my book! With all the watermelon consumed around your house this summer, why not make watermelon rind pickles and preserves? They are so good to eat now, and they're fine for Christmas giving and for use in fruit cake (in place of citron). Watermelon rind preserves can be used to decorate Christmas goodies, too.

Save those rinds that are thick. Here are the directions. Hope by tomorrow you'll have some pickles and preserves under way! Your family will love them.

Sweet Pickled Rind

Select rind from a small firm, not over-ripe melon (or half a rind from a large melon). Trim off green skin and pink flesh. Cut in inch cubes and soak for 2 1/2 hours in lime water — 2 tablespoons lime and 2 quarts of cold water. Drain and cover with cold water to freshen. Drain again, cover with fresh water and cook for 1 1/2 hours, or until tender; add more water as it boils off, if necessary. Let stand overnight in this same water and drain next morning. Bring to boiling point 2 quarts white vinegar, 1 pint of water, 8 cups sugar and 2 tablespoons whole cloves and 4 sticks cinnamon tied loosely in cheesecloth. Add the drained watermelon, and boil gently for 2 hours, or until sirup is fairly thick and rind clear. Remove spice bag, pack watermelon pickle in sterilized glass jars, seal air-tight and store in cool place.

Select thick watermelon rind, from 1 small melon or half rind from large one. Trim off outer green skin and pink flesh, using only the greenish-white part. Cut into 1/2 or 1 inch cubes. For the prepared rind, prepare 2 quarts of lime water containing 2 tablespoons of lime (calcium oxide). Let the melon stand in the lime water for 1 hour to make it crisp. Drain and place in clear water for 1 hour. Drain again and boil for 1 1/2 hours in fresh water. Drain again. To prepared watermelon rind, add 2 tablespoons of lime (calcium oxide) into hot sterilized jars and seal.

GROWING WITH THE GLADES

FIRST CHURCH OF CHRIST, SCIENTIST, Belle Glade

CHRISTIAN SCIENCE GROUP, Canal Point

That strength, joy and healing result from a spiritual understanding of God as infinite Life will be brought forth at Christian Science services Sunday.

Keynoting the Lesson-Sermon entitled "Life" is the Golden Text from Romans (6:23): "The gift of God is eternal life through Jesus Christ our Lord."

Selections to be read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, include the following (487:27): "The understanding that Life is God, Spirit, lengthens our days by strengthening our trust in the deathless reality of Life, its almightiness and immortality."

The following passage will be among those read from the Bible (Psalms 118:14, 17): "The Lord is my strength and song, and is become my salvation . . . I shall not die, but live, and declare the works of the Lord."

Historic Press And Printer Who Used It In 1883 Reunited

GAINESVILLE — Old friends met in a tearful, but happy reunion at the University of Florida last week when David B. Turner, 82 year old veteran newspaperman, saw his father's anto-bellum printing press again.

"That's it! That's it!" Turner said as he again touched the old George Washington press for the first time in 62 years.

After traveling around the state and looking at a similar press in Florida State Museum, Turner finally found the old family press still being used by journalism students at the University.

According to Turner, the press was supposedly brought to Florida by water and then loaded on wagons and taken to Clearwater where his father, W. C. Turner, used it to print the West Hillsborough Times in 1884.

This paper, which was published in the back room of a local drug store, was later sold and moved to another city where it became the forerunner to today's St. Petersburg Times.

After printing the first issues of the Times, the Washington press reportedly disappeared until the early 1920's when it turned up again in a Clearwater news plant. The plant was sold to E. H. Shiltz, who continued using the press until he presented it to the University of Florida in early 1950.

David Turner was taught to run this printing press in his

father's newspaper, plant when he was 11 years old, and after the West Hillsborough Times was sold in 1893 he did not see the old "hand-puller" again until last week.

Actually, despite its age and extensive travels, this same press will make one more trip next fall when it is moved into the School of Journalism's new quarters beneath the Florida stadium.

Along with the machine, the University also has original copies of the first issues of the 1884 paper that David Turner sent to the School of Journalism several years ago.

Turner, who has become his family's second newspaperman, retired several weeks ago as editor-owner of a weekly in Statesboro, Ga., and is currently visiting relatives and friends in Clearwater.

He was accompanied on his trip to the University of Florida by a brother, Rev. Hay Ered Turner, a retired Methodist minister from Jacksonville.

From where I sit... by Joe Marsh

What's New with Cows?

Catching up on my reading, I noticed three news items you might like to know about.

First, a farmer whose milk had a trace of garlic flavor is feeding his cows chlorophyll to sweeten their breaths.

Next, a college agricultural station has trained a herd to get milked when they are called by number. Seems 75 out of 80 cows learned their numbers in a few days. Guess the "dumb" five couldn't count that high. Final item — cows are getting "nose-printed" for identification.

From where I sit, I hope there is as much progress being made with humans... especially in regard to tolerance. Whether it's a choice of a political party, a basketball team, or a favorite beverage, let's learn to live and let live more. You may ask for a soft drink after a hard day's work — I'll choose a refreshing glass of beer. But let's not try to "cow" the other fellow into our way of thinking!

Churches Of Old And New Show Course Of American History

WASHINGTON — America, its destiny always linked closely to the faith of its people, stands today more than ever a nation of churches, old and new.

Religious shrines mark off the broad course of its history—from Old Virginia's rustic parish churches and New England's venerable meetinghouses to San Miguel in Santa Fe, N. Mex., still lifting its scarred walls despite more than three centuries of fire, strife, earthquake and the slow wear of time.

The United States also looks to the future through its churches and synagogues, says the National Geographic Society. Church construction is booming. Last year religious edifices valued at \$472,000,000 were started. This year churches are going up at a record \$500,000,000 rate.

Most churches antedating 1789 and still standing, at least in part, are found in Virginia. Some also survive in Pennsylvania, Maryland, a few other eastern states and at least two in New Mexico.

The oldest is probably San Miguel. Its history reaches back to the early 17th century, possibly further. Time has altered its countenance. Five foot thick walls remain, but its roof has been replaced and its storm-wrecked tower remodeled.

Truer to original design is the mission church at Acoma, N.M., one of the best examples of two-towered adobe architecture. Its beginning also is lost in the past but some historians think it seen only to San Miguel in antiquity.

In Virginia, St. Luke's near Smithfield (1632) appears the oldest building of English style in the country. Hardly less ancient is the ivy-mantled tower at Jamestown, a monument to the first permanent British settlement.

Only one New England church now stands as a 17th century relic—Ship Meeting House at Hingham, Mass. (1681), a wood-

en building surmounted by a truncated pyramid roof. It lays claim to being the "oldest building in the United States used continuously for public worship."

"Friends' Meeting House near Easton (1684) goes back further than any other Maryland church. Some edifices that have also seen 250 years pass are St. George's, Accomac County, Va.; Merchant's Hope, Prince George County, Va.; Gloria Dei, Philadelphia; Norriton Presbyterian, Montgomery County, Pa.; and Steeple Hollow Dutch Reformed, Tarrytown, N. Y.

History has bestowed fame on several early buildings, not, however, among the very oldest. The signal lanterns for Paul Revere were displayed on Old North Church, Boston (erected

in 1723). Touro Synagogue, Newport, R.I. (1759), the oldest Jewish house of worship in the United States, cherishes an intimate letter from George Washington ("happily the Government of the United States . . . gives to bigotry no sanction").

St. John's in Richmond, Va. (1741), provides a living link with the Nation's Founding Fathers. There Patrick Henry proclaimed "Give me liberty or give me death" and there Washington, George Mason, Thomas Jefferson, and Richard Henry Lee joined in public meetings.

The founding of the Franciscan missions, partly restored today, paralleled much of the early development of California. The last—San Francisco de Solano—was established just north of San Francisco Bay in 1823. But even when Father Junipero Serra built the first—San Diego de Alcalá—in 1769, San Miguel in the Southwest's "City of the Holy Faith" had already entered its second century.

Health TOPICS

Presented by your Doctor of Medicine as Health Service of the Florida Medical Association and your Local Medical Society.

TUNG NUT POISON

The tung nut tree should not be grown as an ornamental near homes where there are children. The mature nuts are enticing, and children may not know they contain a poisonous substance.

When ripe, the nuts look like walnuts and the seed is similar to the Brazil nut. The meat has a sweetish taste like the chestnut. The older stored nut has a pleasant toasted almond flavor which is spoiled by the rancid after-taste of tung oil.

One nut is capable of producing a mild case of poisoning. A half hour after the meat has been eaten, there is likely to be nausea followed closely by vomiting. Later there is diarrhea which may continue from three to five hours. In some cases, an intense thirst may be present which only makes vomiting worse.

When a number of seeds have been eaten, great pain and vomiting is likely to result with cold, clammy skin, griping, delirium, weak, rapid pulse and perhaps death. It is the quick effect of the poison causing vomiting, physicians believe, that accounts for the fact that few deaths have been reported.

As soon as it is known that the child has eaten the nuts, it is wise to rush him to the nearest physician. There are drugs which have proved most successful in treatment of the poisoned patients.

All children should be warned that the nuts are poisonous and must not be eaten. Farmers contemplating commercial growing should take this fact into consideration and select fields for the crop well removed from residences.

The number of tung nut poison cases have been increasing since harvest of the first commercial crop near Gainesville 20 years ago. Physicians believe the increase is due to the growth and spread of the industry in Florida and to the number of unreported cases being encountered.

Since the crop adds valuable diversity to agriculture, it is likely to increase further and along with it a greater number of poison cases. That is, unless people take the necessary precautions.

ARTHRITIS?

I have been wonderfully blessed in being restored to active life after being crippled in nearly every joint of my body, and with muscular soreness from head to foot. I had Rheumatoid Arthritis and other forms of Rheumatism, hands deformed and my ankles were set. Limited space prohibits telling you more here but if you will write me I will reply at once and tell you how I received this wonderful relief.

U of Miami Bill Fish Expedition Leaves Chile For Peruvian Visit

CORAL GABLES—The first phase of their work completed, members of the Los Marron University of Miami Pacific Billfish Expedition are preparing to leave Iquique, Chile for Talara, Peru, where the research will be continued. The expedition boat EXPLORER will be shipped from Iquique to Talara aboard the Grace Steamship Line steamer SANTA RITA, leaving Iquique on July 8.

At Iquique research has been mainly confined to striped marlin and broadbill swordfish. The work off Talara will mainly concern black marlin and bigeye tuna. At Iquique stations were also set up by Luis Rivas, Marine Laboratory, scientist-in-charge of the expedition, to obtain water samples and data on salt content and temperatures of the water.

More than 100 striped marlin and swordfish were caught by expedition members, all of which were scientifically weighed, measured and dissected in order to obtain information and certain organs of the fishes for further study by scientists of the Marine Laboratory of the University of Miami in Coral Gables.

The canner at Iquique very generously cooperated with the

expedition by loaning the use of one of their purse-seiner fishing vessels. This vessel, says John Manning, expedition associate, was perfect for use in the operation of the Japanese long line employed by the expedition to catch various fishes of the area. In return for the favor the expedition members have demonstrated to the canner management methods of commercial fishing.

Manning reports having received the utmost cooperation from all Chilean government and local officials, as well as the people of Iquique. Interest displayed in the expedition by the Chileans has been very great and this has served to encourage the expedition members, as well as making the stay at Iquique very pleasant.

The Los Marron University of Miami Pacific Billfish Expedition, scheduled to continue for five years, is designed to gain information not only on the large game fish of the Chile, Peru, Ecuador, Colombia and Panama waters, but also to obtain a great deal of new knowledge regarding the ocean currents and the planktonic foods which are the principal factors underlying all life in the sea.

VOLUME 9 — NUMBER 21

Banker Honored

PAHOKEE—An engraved silvered award has been presented to Harry M. McIntosh, president of the Bank of Pahokee by the saving bonds division of the U.S. Treasury Department for his "long and consistent efforts" in the sale and promotion of Government savings bonds.

Mr. McIntosh has headed local bond activities since March 24, 1942 and expressed appreciation of the Isabel pin which carries the seal of the U.S. Treasury Department and the border inscription "U.S. Savings Bonds Volunteer."

The award was tendered in behalf of Victor H. Northcutt, president of the First National Bank of Tampa and volunteer advisory chairman for the state of Florida, by Henry G. Dooley, area deputy for the bond division in south Florida.

Sound Money
The present administration has not changed one iota in its program to maintain sound money," Dooley stated in making the award. "This savings bonds program is very important (1) in managing the huge Federal debt and (2) in controlling inflation."
"This is because every dollar you invest in a Series E or H savings bond means another dollar that is in the hands of the individual saver for a long period of time instead of the bond banking system. Therefore, every dollar that you invest in a bond is a dollar that will reduce the chances for further inflation."

Investors
During the past 12 months, Floridians have invested \$58,899,284 in Series E and H bonds, an increase of 12.18 per cent. In Palm Beach County, for the corresponding period, the investment total \$2,867,614—a 12 months' increase of 3.29 per cent.

In closing, Dooley expressed thanks of the Treasury bond division to the newspapers and banking institutions of this area for their support of the bond program. The program is "all to the good," he added for it gives the people an opportunity to build their future security in "the safest investment on earth," the large volume of purchasing reported above places a substantial financial cushion under the economy of the area and the more than \$37 billions now in savings bonds is a powerful deterrent to inflation and of great value in federal debt management.

LIBRARY POST STILL VACANT

PAHOKEE—With all except the librarian position left open by the transfer of Miss Dorsey, to be filled, Principal Clyde Canipe of Pahokee high school is looking forward to another successful school year.

With eight vacancies two weeks ago, Canipe has been busy interviewing and looking over applications preparatory for the adjourned school board meeting late last week.
At that time, there being a quarant present which had not been the case for the regularly scheduled meeting, teacher's appointments for Pahokee were approved as follows: Roy Evers, fourth grade; Mrs. Evelyn Minnich, third grade; Francis Howan, commercial teacher; Thomas Kuback, Jr., English; Eugene W. Sproule, agriculture; Miss Martha Jean Bridges, first in white grade; and Miss Rita Fandrei, girls physical education.

PRINCE PRESENTS SEVEN TALENT ACTS

PAHOKEE—With seven acts the Prince Theatre Talent Show on Tuesday night was a great success. Sponsored by Dooley Food Center and Jack Spencer's Meat Market, the show featured the Jones sisters who took first place with their angling and dancing numbers. Nelson Johnson was second prize winner. Others performing were Judy Howard, La Verne Geiger, Wayne Elliott and the guest winners from Belle Glade Billy Mathis and Bob and Joe Dixon. Malcolm Miller arranged the program.
